- Supporting Cosmetic R.A Programs based on Customer' Needs (Cosmetic Registration and Certification)
- Logistic & Inventory Management
- Supporting Partnership with manufacturers

# Professional Cosmetic Researcher & Developer

BonitoLab is a cosmetic research lab, and we are constantly suggesting and presenting new cosmetic formulas and cosmetic functions by customer's needs. In addition, BonitoLab is pursuing a global cosmetic market to grow with our valuable customers from our research, R&D, decorative business planning, marketing, sales, and product training based on global cosmetic trends.

If you don't have any team to launch the cosmetics or you don't have any idea to find the solution to create a new cosmetic product. BonitoLab can suggest and help your concern and difficulty in creating your branded cosmetic with our unique cosmetic solutions. Our solution is based on K-beauty, oriental medicine, and global cosmetic trends. We can fuse every concept and help your team or company.

Trust BonitoLAB | We're your Team!

# BonitoLab's Principles

## BonitoLab is usually seeking the development of Unique Cosmetic Formula

Launching the Cosmetic Products are not just about manufacturing the Cosmetics. The most important thing is creating an independent and unique formula for the only customer through R&D, Marketing, and various strategies. The significant value is to understand our customers precisely. BonitoLab existed that help our customers by creating unique formulas to contribute to the successful launch of cosmetics for customers with our strategies.

## The Cosmetic Formula of BonitoLab provide

1. Special & Clean beauty Skincare
2. Trendy Haircare products
3. Healthy Body care
4. Aromatherapy based skincare and items  
: Every Cosmetics are based on EWG & Vegan Formula
5. Targeted Cosmetics (Ex. Functional)

# Our Service

BonitoLab is a Cosmetic Researcher Group that support & help the R&D with the launch project of Cosmetic Formula for our valuable customers

We are a Cosmetic Specialized Group for companies that do not have the department, resources, or less experience to launch the cosmetic items. BonitoLab is offering detailed service for developing Cosmetic Processes. We care for all cosmetic launching processes, from searching for ingredients, developing the cosmetic formula and marketing support.

**Government** ● Government Projects (3 Times)  
: South Korea

# Our Project' Differentiation

When developing the cosmetic and contacting manufacturers, the main issue is the satisfaction

## Problem of Typical Co-work Processes with manufactures

	<p><b>Meeting and Introducing</b> (Just Offer owned cosmetic Formula)</p>		<p>Ingredients &amp; Concept Limited (Idea Recycle with possessed ingredients)</p>
	<p><b>Sampling based on their lists</b> (Only 2~3 times sampling)</p>		<p>According to amount of samples, budget will be increased</p>
	<p><b>Higher M.O.Q with limited components</b> (Based on manufacturer's condition)</p>		<p>Normally higher volume and less Selection for cosmetic components</p>
	<p><b>R.A &amp; Registration Problem</b></p>		<p>Clients should be in charge or should find out another agency</p>
	<p><b>Launching Processes</b></p>		<p>Provide only basic information's Clients should prepare the everything</p>

In the beginning stages of cosmetic development, it is challenging to develop customized products for clients due to higher budgets and limitations.

# BonitoLab' Project System

**Accurately identify client's needs about cosmetics, create more details,  
and share many trials of our study**

## Step1 | Meeting with Our Valuable Client

- Justify client's Need Perfectly  
(What's product client want and launch?)
- Product Consultation with current cosmetic Trends
- Apply sales channel strategies for new item (Retail / On-line / Hospital / SPA / Special Sales Channels)

## Step2 | Product Research for Clients

- Ingredients Research based on consultation (Adding the possible ingredients)
- Suggest the Unique Cosmetic Concept & formula with customer favorites
- Package Strategies based on launching products

## Step3 | Sampling and Package Concepts

- Unlimited Offering the Sample until satisfied with fast running time
- Quick Formula Modifications
- Suggest package concept based on developed formula and cosmetic
- Fix the development together

## Step4 | Selecting Manufacture

- Suggest the reasonable manufacture based on developed formula, budget, MOQ, and every consideration
- Possible to all manufacture based on client's request and demand
- Coordinating & Handling the manufacture

## Step5 | Manufacturing

- Providing the management supervision and retrieval of all production processes on behalf of clients
- Real-time report provided
- Performing 100% manufacturing coordination, even budget

## Step6 | Registration Processes

- All documentation provided (registration, certifications, and other documents)
- Follow up registration document for each country
- According to Clients condition, we can offer various documents (RA, Testing, and other relative documents)

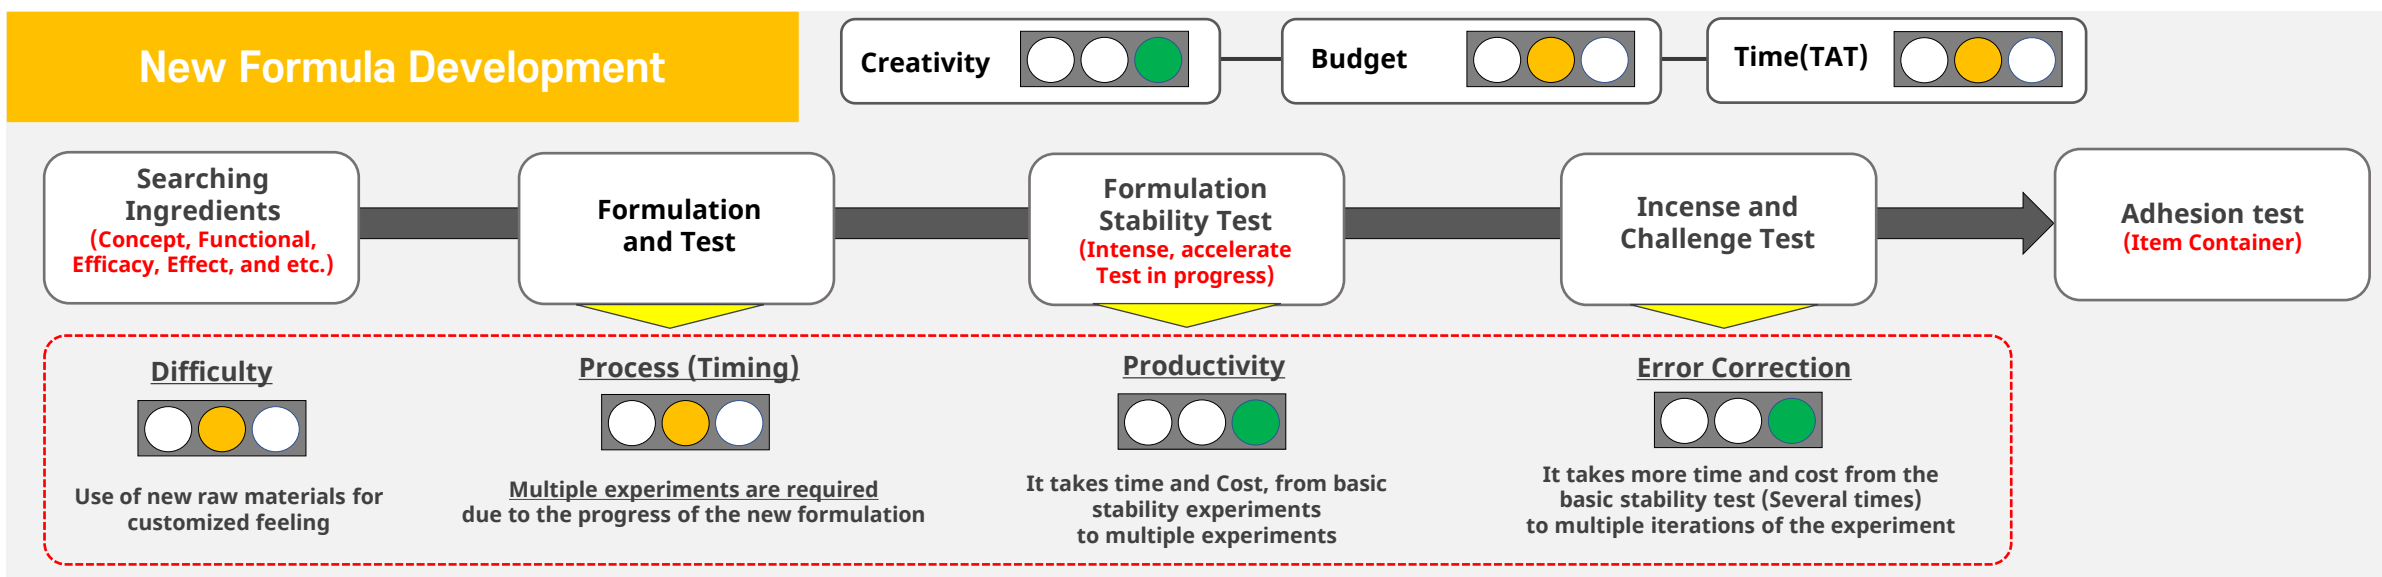

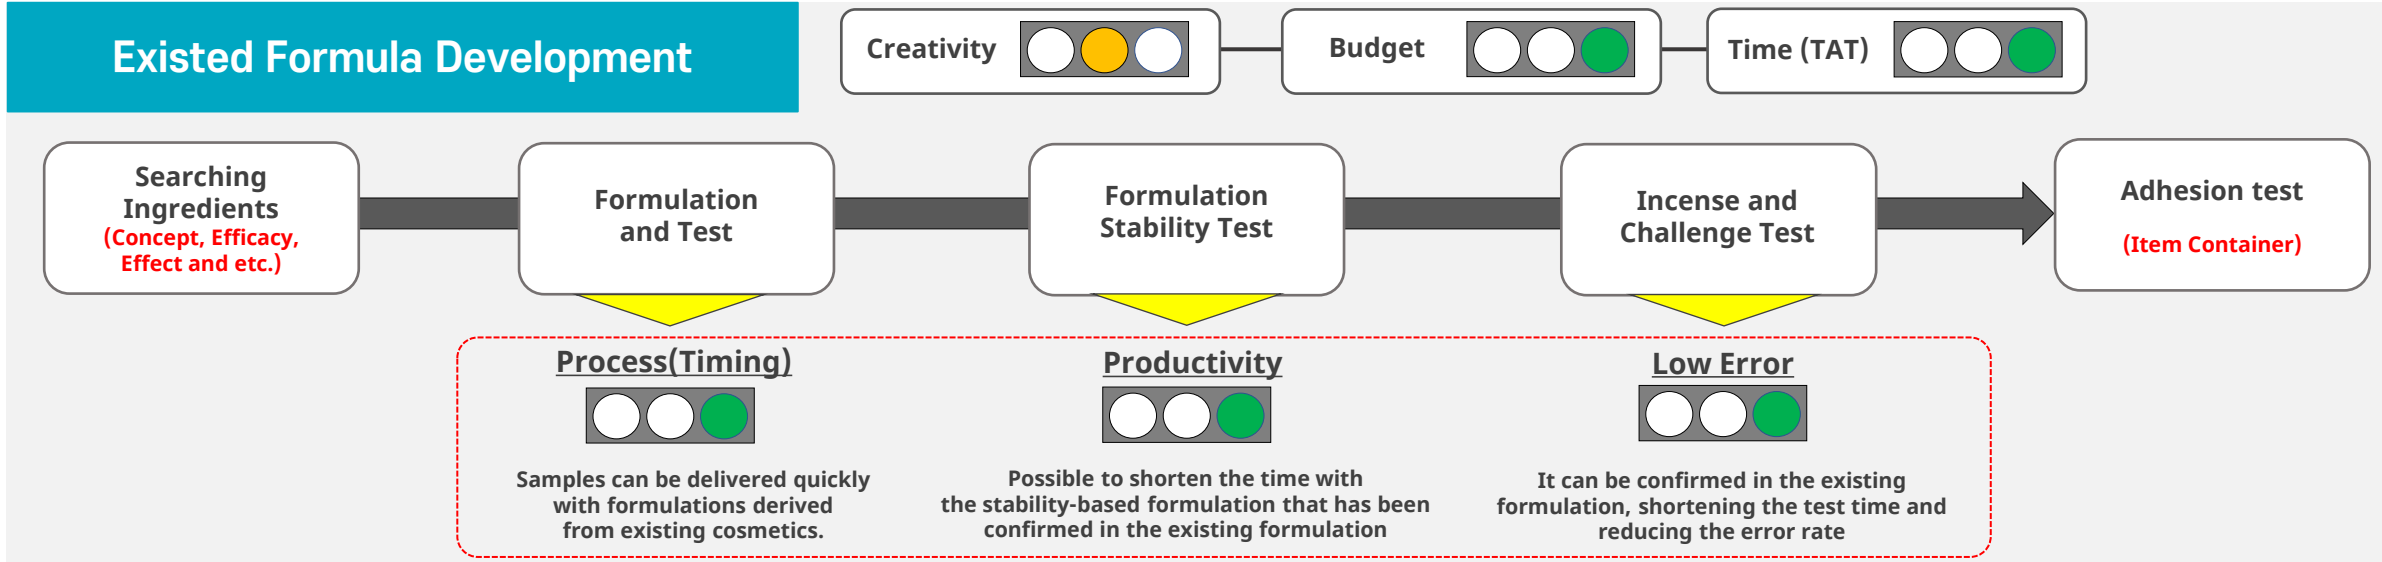

## Step7 | Launch Preparation

- Additional Documents provided (Sales Tools, Marketing Materials and etc.)
- On-line product page available
- Support Training Material Development
- Marketing Material Support for your business successes

**BonitoLab do every process to establish your branded cosmetics.**

**CIVASAN**  
PROFESSIONAL

— SKIN-SOLUTION BY THE PROFESSIONALS, —  
FOR THE PROFESSIONALS

**IN-pH Derma**  
Gel-type solution that adjusts to original pH

IN-pH Derma

A gel-type solution that gives an instant shock to the skin that is chemically exfoliated by Panafesol, to take the pH of the skin back to normal.

It is necessary to immediately adjust the pH balance of the skin after the chemical exfoliation. If you miss this stage, there is a risk of getting burnt or skin pigmentation. Therefore, the role of pH Derma that can keep the golden time is very important.

pH Derma acts as a booster to enable the core energy of Lidomedic's soothing + regeneration to be applied to the skin, beyond a simple pH balance control.

For Professional Use Only

250ml@ NET 6.762 FL.OZ

**CIVASAN pH Derma**

It is necessary to immediately adjust the pH balance of the skin after the chemical exfoliation. If you miss this stage, there is a risk of getting burnt or skin pigmentation. Therefore, the role of pH Derma that can keep the golden time is very important.

pH Derma acts as a booster to enable the core energy of Lidomedic's soothing + regeneration to be applied to the skin, beyond a simple pH balance control.
